

# Leder-Fein for perfect leather care!

## Cleaning and care of your precious leather items Leder

### Leder-Fixativ 100 ml

**Suitable for leather/textile composite items, multi-coloured leather items as well as black, red, Bordeaux, blue.**

Fixes the tanning, colour and stuffing substances in the leather. Prevents leaching out during washing. To be used preferably in the rinsing water after the leather washing. Make sure that the instructions for use are followed. Caution: the product contains light, volatile acids of natural origin. Avoid skin contact by using gloves. Thoroughly wash off splashes on the skin or the eyes with plenty of water.

**Keep the product away from children.**

Refer to the washing instructions for proper use.

### Special leather + fur washing concentrate (pat.) 250 ml

1 bottle + 12 litres of water at 35° C – For cleaning dilute at a ratio of 1:50

Suitable for hand-wash or machine-wash; in the case of machine-wash, the program must be set for delicate laundry, i.e. 40 °C. Ideal for all suede and smooth leathers.

To be used according to the washing instructions or at a mixture ratio of 1:50 for the cleaning of e.g. furniture, bags, suitcases, motorbike clothing etc.

Soft washing without leaving any marks is **guaranteed**, no shrinking - removes spots caused by food, fat, oil, lemonade, beer, alcohol etc.

Fur rugs with purely white reverse sides upon request, because the tanning could possibly be washed out in certain cases.

**Low-cost, environmentally friendly washing without chemical solvents.**

Also applicable if only the lining has taken on the smell of sweat.

Do not forget rubbing, kneading and, if necessary, brushing (suede leather) after drying.

**Never wash two different items together!**

Also perfectly suitable for textile/leather composite items.

### GENUINE, natural Leather cleaning oil 175 ml

Allows leather to breathe - keeps the pores open! The raincoat for leather!

With impregnating additive!

Only for smooth leathers! Not for suede leathers!

Cleans the surface if rubbed over it, offers protection against moisture and dirt -

deeply penetrates the leather and preserves it inside. Fat or spray have an effect on the surface.

In the case of all sorts of smooth leathers with the exception of varnished leather, always apply only a thin layer (not wet) in circular movements using a cloth.

Suitable for: Leather clothing, boots, shoes, gloves, bags, suitcases, furniture, book covers, riding equipment, car leather seats etc.

# LEATHER washing and care instructions

## LEDER- Fixativ - Pretreatment

Leather/textile composite items  
Multi-coloured leather items  
Black, mono-coloured  
Red, mono-coloured  
Bordeaux, mono-coloured  
Blue, mono-coloured

pretreat such items for colour fixing

not in the machine

1/2 bottle

5 -10 l water 30 - 35°C

Add leather item

Soak for at least 60 minutes,  
let the item drip,  
put it in the washing-machine  
without rinsing

## Washing

Set the program for washing woollens or gentle action wash, i.e. 30 - 35 °C! First washing by hand in order to test the lining material. Heavily soiled items:  
Interrupt the washing process and work with a brush, proceed and finish washing.  
It is guaranteed that the leather remains soft!

Fill 1/3 – 1/2 bottle of LEDER-FEIN  
into the machine drum, start washing

Spin-dry only for a short time

Shake thoroughly to remove folds

Suspend the item on a dress-hanger and let it dry at room temperature

### Attention:

The leather fibers stick together during drying!

Pull the dried parts into form and rub them thoroughly.

In the case of nubuk and velours leather subsequent brushing is required in addition.
